Works completed	Yes	
Works reinstated	Yes	
Site cleared	Yes	
Description of works undertaken	<p>We attended site regarding the sign of a leaking water main on 19/08.</p> <p>We set up a safe working area and CAT Scanned the proposed working area.</p> <p>We excavated by the 100mm VC drainpipe where the water was cascading.</p> <p>We had to extend our excavation and follow back the 15mm copper pipe work. The cooper pipe work ran under the property. The leak was somewhere under the property.</p> <p>We re-attended and undertook internal investigations to re-route the pipe work. We installed new 20mm MDPE into the kitchen.</p> <p>We Core drilled from the kitchen into our excavation and lagged the pipe work.</p> <p>We connected to the 15mm external pipe work.</p> <p>We tested our installation.</p> <p>We cut out the failed section of pipe work and installed new MDPE pipe works and fittings.</p> <p>We tested our installation.</p> <p>We backfilled with as dug material and left the site safe.</p> <p>We are re-attending on Saturday 5th September to undertake concrete reinstatement and clear site.</p>	
Please take pictures of each working stage and any relevant additional information (i.e pre start damage etc.).
